

COMMANDCENTRAL JAIL PLUS

MAINTAIN ORDER. KEEP THE PEACE.

CommandCentral Jail helps you simplify and streamline the complicated offender intake process while also improving inmate and officer safety with automation, alerting and increased awareness of jail and inmate activity. CommandCentral Jail provides an officer-oriented experience that helps your team be successful across all job responsibilities and is built to integrate widely with other systems you use - all while remaining completely secure.

STREAMLINE JAIL OPERATIONS BY LEVERAGING THE CLOUD

OFFICER-ORIENTED DESIGN

We focus our research and development around the user to help simplify their workflows - from intake to rounds to release. Combined with a continuous and iterative customer feedback loop, our agile deployment model makes it easy to adopt new features and capabilities that enhance correction officer's workflows, saving time and eliminating multiple data entry points all without disrupting your mission-critical operations.

BUILT TO INTEGRATE

To deliver the vital insights you need to be successful, we source information from arresting officers, partner agencies and even third party systems, and inject it directly into the workflows to improve awareness and efficiency.

CLOUD ENABLED

CommandCentral Jail delivers dependable and proven capabilities with the advantages of the cloud, allowing your agency to perform at its best with technology that is secure, always up-to-date, and cost effective.

WHY COMMANDCENTRAL JAIL PLUS?

STREAMLINE OFFENDER INTAKE & BOOKING

KEEP OFFICERS PRODUCTIVE

Ensure officers stay productive by getting offenders behind bars fast.

MAINTAIN COMPLETE AWARENESS

IMPROVE SAFETY AND SECURITY

Increase and simplify access to critical information for improved safety and security.

RELEASE INMATES CONFIDENTLY

BUILD COMMUNITY CONFIDENCE

Be certain that the right inmates have served their sentence and are released.

STREAMLINE OFFENDER INTAKE & BOOKING

Automated Pre-Booking: Arrest report information filled out in the field is made directly available for booking.

Configurable Booking Checklist: Configure a step-by-step booking process to guide your team through intake process efficiently.

Intake Integrations: Integrate with 3rd party systems to make their operation a natural part of the intake process in the booking checklist.

Dynamic Assessments: Configure guided assessments that help officers determine where inmates should be housed and their required supervision.

MAINTAIN COMPLETE AWARENESS

Comprehensive Inmate Profile: Easily review an inmates record, including flags, medical details and requests, to better attuned to their current status.

Daily Event Management: Simplify operations by organizing tasks and surfacing information pertinent to an officer's responsibilities.

Tracking and Monitoring: Use barcode scanners to track inmate movement and activity as well as keep-separate alerts to avoid conflicts.

Incident Logging and Discipline: Record and track violations and disciplinary actions applied to violators. Sanctions and flags can be added to inmate profiles quickly and easily.

RELEASE INMATES CONFIDENTLY

Intelligent Sentencing: For inmates with work privileges or weekenders, rest assured you can accurately track and account for their time served.

Release Checklist: Just like with the booking process, a configurable release checklist ensures you get everything right upon inmate release.

External Information Sharing: Inmate information can be accessed by partners for use in investigations.
