

COMMANDCENTRAL JAIL STANDARD

MAINTAIN ORDER. KEEP THE PEACE.

CommandCentral Jail helps you simplify and streamline the complicated offender intake process while also improving inmate and officer safety with automation, alerting and increased awareness of jail and inmate activity. CommandCentral Jail provides an officer-oriented experience that helps your team be successful across all job responsibilities and is built to integrate widely with other systems you use - all while remaining completely secure.

STREAMLINE JAIL OPERATIONS BY LEVERAGING THE CLOUD

OFFICER-ORIENTED DESIGN

We focus our research and development around the user to help simplify their workflows - from intake to rounds to release. Combined with a continuous and iterative customer feedback loop, our agile deployment model makes it easy to adopt new features and capabilities that enhance correction officer's workflows, saving time and eliminating multiple data entry points all without disrupting your mission-critical operations.

BUILT TO INTEGRATE

To deliver the vital insights you need to be successful, we source information from arresting officers, partner agencies and even third party systems, and inject it directly into the workflows to improve awareness and efficiency.

CLOUD ENABLED

CommandCentral Jail delivers dependable and proven capabilities with the advantages of the cloud, allowing your agency to perform at its best with technology that is secure, always up-to-date, and cost effective.

WHY COMMANDCENTRAL JAIL STANDARD?

STREAMLINE OFFENDER INTAKE & BOOKING

KEEP OFFICERS PRODUCTIVE

Ensure officers stay productive by getting offenders behind bars fast.

MAINTAIN COMPLETE AWARENESS

IMPROVE SAFETY AND SECURITY

Increase and simplify access to critical information for improved safety and security.

RELEASE OFFENDERS CONFIDENTLY

BUILD COMMUNITY CONFIDENCE

Be certain the right offenders have been released.

STREAMLINE OFFENDER INTAKE & BOOKING

Configurable Booking Checklist: Configure a step-by-step booking process to meet your jail's needs and guide your team through intake efficiently.

Biometric Positive ID: Use fingerprint or facial recognition to positively ID an offender during the booking and release process.

Booking Queue: Gain at-a-glance visibility of how busy the booking area is to help determine appropriate staffing. Track and measure the status and progress of each incoming offender.

MAINTAIN COMPLETE AWARENESS

Activities: Stay on top of all day-to-day activities by organizing tasks and surfacing information pertinent to an officer's responsibilities.

Comprehensive Inmate Record: Easily review an individual inmate's record with the comprehensive profile, which includes any flags, current and past booking details, assessments and activity logs so you can be better aware of an inmate's current status.

RELEASE OFFENDERS CONFIDENTLY

Configurable Release Checklist: A configurable release checklist helps your team successfully complete every item in your process upon releasing an offender.

COMMANDCENTRAL JAIL STANDARD OFFER

CommandCentral Jail Standard is designed to meet the needs of local police department holding facilities with features that enhance the booking and release of inmates efficiently while providing officers with tools to access critical information to improve situational awareness and ensure safety. We know that there is a lot at stake - the success of your staff, their safety, inmate safety and ultimately the safety and prosperity of the communities you serve. And while challenges are abundant, now more than ever technology can be that advantage you need to get ahead and make a difference. Start your journey on maintaining order and keeping the peace with CommandCentral Jail Standard.
